The Manager  
Company Announcements  
Australian Securities Exchange Limited  
4<sup>th</sup> Floor  
20 Bridge Street  
SYDNEY NSW 2000

Dear Sir

## **ISS Group Contracted to Supply Software Products to Fortescue Metals Group Ltd.**

PERTH, Western Australia – ISS Group Limited (ASX: ISS) is pleased to announce it has been contracted to supply Product Licences for BabelFish and Operational Application products to Fortescue Metals Group Ltd (FMG).

The Product component of the first phase has an estimated value to ISS of approximately A\$650,000 and should be implemented over a 9 month period starting June 2007 with maintenance fees over a further two year period. A more significant services order from a third party is anticipated, but not finalised as yet for the design, implementation and configuration of the ISS products.

Announcing the contract, Managing Director, Shane Attwell commented; "ISS has invested heavily in developing our presence in the minerals market. Our investment, as in the oil and gas sector, is beginning to pay dividends with this project and the previously announced Rio Tinto Iron Ore rollout of our systems. We expect to make further in-roads in the minerals sector over the next 12 months.

We are looking forward to working closely with FMG to assist in the realisation of this dynamic Western Australian project."

### **About Fortescue Metals Group Ltd:**

Fortescue is the New Force in Iron Ore with over 2.4 billion tonnes of Resources, including 1.1 billion tonnes of Reserves already delineated from less than 10% of its 38,000 square kilometres of tenements, the largest in the Pilbara.
