Dear Sir

### **2010 Interim Accounts**

Fortescue Metals Group ("ASX:FMG" "Fortescue") advises the lodgment of its 2010 Interim (half year "HY") Accounts. Included with the report is a presentation of the key comparatives between the results to 31 December 2009 and those for the corresponding period in 2008.

The attached Appendix 4D provides a comparison of revenue and net profit for the current and previous corresponding period. It is important to note the impact of the accounting treatment of the Leucadia Note and foreign exchange adjustments. These are non trading items that have a significant influence on reported net profit. By reference, within the HY2010 result the increase in the fair value of the Leucadia Loan Note created a negative adjustment of US\$55m to the net profit of US\$43m. In comparison, a downwards revision to the value of the Leucadia Note made a positive contribution of US\$1,411m to the HY2009 net profit result of US\$760m.

The review of the Leucadia Note value is an accounting requirement at each reporting date to reflect the net present value of expected future payments due to Leucadia under its Subordinated Note (refer Note 9 of the accounts). Adjustments are made to reflect changed expectations of key production variables such as iron ore prices and shipped volumes. The increase to the value of the Leucadia Note in this reporting period, which created a negative adjustment to net profit, reflects an increase in the forecast iron ore price expected for 2010/11.

To facilitate a better understanding of the accounts, the attached presentation focuses on the earnings results with a reconciliation to production, shipping and sales over the two comparative periods. Also there is a break-out of the non trading influences on the results to show the progression from trading performance through to the ultimate net profit position.

Also, as Fortescue now reports in US\$, the HY2009 results which were reported in A\$ at the time, have been restated in US\$ for comparison purposes.

Yours sincerely  
**Fortescue Metals Group Ltd**

**Rod Campbell**  
Company Secretary

### **DIRECTORS' REPORT**

---

The Directors present their report on the consolidated entity ("Fortescue") consisting of Fortescue Metals Group Ltd (the "Company") and the entities it controlled at the end of, or during, the six months ended 31 December 2009 ("half-year").

#### **DIRECTORS**

The following persons were Directors of the Company during the whole of the half-year and up to the date of this report, unless otherwise stated:

##### **Non-Executive**

Mr Herb Elliott - Chairman  
Mr Ken Ambrecht  
Mr Joseph Steinberg – resigned 28 August 2009  
Mr Geoff Brayshaw  
Mr Owen Hegarty  
Dr Ian Burston  
Mr Li Xiaowei  
Mr Ian Cumming – appointed 28 August 2009

##### **Executive**

Mr Andrew Forrest  
Mr Graeme Rowley  
Mr Russell Scrimshaw

#### **REVIEW OF OPERATIONS**

Total revenue from iron ore sales was up 15% from the corresponding period last year with 18.6 million tonnes shipped compared to 13.2 million tonnes. The average price received per dry metric tonne decreased from US\$71.65 for the six months ended 31 December 2008 to US\$57.22 for the six months ending 31 December 2009. This resulted in a reduction in gross profit to 20% compared with 41% last year.

Fortescue retained a healthy cash position of US\$706 million as at the end of the half.

Construction commenced on the Christmas Creek expansion project.

#### **AUDITOR'S INDEPENDENCE DECLARATION**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 4.

#### **EVENTS SUBSEQUENT TO REPORTING DATE**

Fortescue shipped its 50 millionth tonne of ore from the Herb Elliott Port on January 18th, 2010.

On February 4<sup>th</sup>, 2010 ASIC lodged a Notice of Appeal in the Federal Court of Western Australia against the judgement handed down by the Honourable Justice Gilmour in civil penalty proceedings brought by ASIC against Fortescue and Fortescue's co-defendant and CEO Mr Andrew Forrest.

There has been no other material event requiring disclosure subsequent to the six months ended 31 December 2009.

**FORTESCUE METALS GROUP LTD**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED 31 DECEMBER 2009**

---

**NOTE 1. REPORTING ENTITY**

Fortescue Metals Group Ltd (“the Company”) is a company domiciled in Australia. The address of the Company’s registered office is Level 2, 87 Adelaide Terrace East Perth WA 6004. The consolidated interim financial statements of the Company as at and for the six months ended 31 December 2009 comprise the Company and its subsidiaries (together referred to as “Fortescue”).

Fortescue’s principal activity is the development and operation of the Chichester iron ore project in the Pilbara in Western Australia.

**NOTE 2. BASIS OF PREPARATION OF HALF-YEAR FINANCIAL STATEMENTS**

**(a) Statement of compliance**

These consolidated general purpose interim financial statements for the six month period ending 31 December 2009 have been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

They do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2009 and any public announcements made by Fortescue Metals Group Ltd during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

**NOTE 3. SIGNIFICANT ACCOUNTING POLICIES**

Except as described below, the accounting policies applied by Fortescue in these consolidated interim financial statements are the same as those applied by Fortescue in its consolidated financial statement as at and for the year ended 30 June 2009.

**(a) Change in accounting policies**

*(i) Determination and presentation of operating segments*

As of 1 July 2009 Fortescue determined and presented operating segments based on the information that internally is provided to the Chief Executive Officer (“CEO”), who is Fortescue’s chief operating decision maker. This change in accounting policy is due to the adoption of AASB 8 *Operating Segments*. Previously operating segments were determined and presented in accordance with AASB 114 *Segment Reporting*. The new accounting policy in respect of segment operating disclosures is presented as follows.

Fortescue concluded that the operating segments determined in accordance with AASB 8 are the same as the business segments previously identified under AASB 114. Internally information is attributed wholly to the iron ore operations within Western Australia as this is the only segment in which Fortescue is engaged.

Comparative segment information has been re-presented in conformity with the transitional requirements of AASB 8. Since the changes in accounting policy only impacts presentation and disclosure aspects, there is no impact on earnings per share.

**FORTECUE METALS GROUP LTD**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED 31 DECEMBER 2009**

---

**NOTE 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

An operating segment is a component of Fortescue that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of Fortescue's other components. An operating segment's operating results are reviewed regularly by the CEO to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

*(ii) Presentation of financial statements*

Fortescue applied revised AASB 101 *Presentation of Financial Statements*, which became effective for annual reporting periods beginning on or after 1 January 2009. As a result, Fortescue presents in the consolidated statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the consolidated statement of comprehensive income. This presentation has been applied in these consolidated interim financial statements as of and for the six months ended 31 December 2009.

Comparative information has been re-presented so that it also is in conformity with the revised standard.

*(iii) Accounting for borrowing costs*

In respect of borrowing costs relating to qualifying assets for which the effective date is for annual reporting periods beginning on or after 1 January 2009, Fortescue capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Previously Fortescue immediately recognised all borrowing costs as an expense. This change in accounting policy was due to the prospective adoption of AASB 123 *Borrowing Costs* in accordance with the transitional provisions of such standard; comparative figures have not been restated. The change in accounting policy had no material impact on assets, profit or earnings per share in the interim period ended 31 December 2009.

**(b) Accounting policies for new transactions and events**

*(i) Joint ventures*

Joint ventures are those entities over whose activities Fortescue has joint control, established by contractual agreement.

*(ii) Jointly controlled entities*

In the consolidated interim financial statements, investments in jointly controlled entities, including partnerships, are accounted for using equity accounting principles. Investments in joint venture entities are carried at the lower of the equity accounted amount and recoverable amount.

Fortescue's share of the jointly controlled entity's net profit or loss is recognised in the consolidated income statements from the date joint control commenced until the date joint control ceases. Other movements in reserves are recognised directly in consolidated reserves.

*(iii) Jointly controlled operations and assets*

The interest of Fortescue in unincorporated joint ventures and jointly controlled assets are brought to account by recognising in its financial statements the assets it controls, the liabilities that it incurs, the expenses it incurs and its share of income that it earns from the sale of goods or services by the joint venture.

**FORTESCUE METALS GROUP LTD**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED 31 DECEMBER 2009**

**NOTE 4. SEGMENT INFORMATION**

Fortescue has one reportable segment, the exploration, evaluation and development of mineral resources and mining operations. Operations are managed as a single integrated logistics chain, and management monitors the operating results on a consolidated group basis for the purpose of making decisions about resource allocation and performance assessment. Fortescue derives its revenues primarily from operations in the iron ore production industry in Australia.

No operating segments have been aggregated to form the above reportable operating segment.

**Geographical information**

Fortescue operates predominantly in the geographical location of Australia, and this is the location of all segment assets. In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers.

**i) Subordinated Loan Note (through its wholly owned subsidiary FMG Chichester Pty Ltd)**

The Company put in place a US\$100 million Subordinated Loan Note during the 2007 financial year. The key terms and conditions of the facility are:

- Interest under the note is calculated as 4% of the revenue, net of government royalties, from the sale of iron ore FOB Port Hedland from the tenements of the Cloudbreak and Christmas Creek areas only. Accordingly the interest is only payable when Fortescue is in production and is only relevant to iron ore produced from these two tenement areas for a period of 13 years from 18 August 2006;
- The note is unsecured and deeply subordinated to any secured debt. In the event that an interest payment is earned but not payable due to secured lender restrictions, the amount unpaid will accrue interest at a market interest rate until payment is made.

The note was revalued at 31 December 2009 to US\$503,491,000 (30 June 2009: US\$381,631,000) in line with changes in the following management estimates, prevailing market conditions and economic forecasts:

- Production was revised to reflect Fortescue's forecast production profile as at 31 December 2009 of production levels from Christmas Creek and Cloudbreak reaching 92mtpa in April 2013 (30 June 2009: forecast reaching 95mtpa in February 2012);
- Future iron ore prices were updated to reflect higher forecasts provided by Metalytics Pty Ltd being an independent resource sector analyst of future iron ore prices;
- The discount rate has been applied since inception and reflects the implicit interest rate of 42% of the Subordinated Loan Note;
- Expected royalty rates have not changed since 30 June 2008 and reflect current royalty rates payable to the Western Australian state government; and
- The total reserve estimate of Cloudbreak and Christmas Creek has not changed since 30 June 2008;
- Foreign exchange forecasts were updated based on information received from Consensus Economics Inc.

**ii) Senior Secured Notes (through its wholly owned subsidiary FMG Resources (August 2006) Pty Ltd)**

The Company raised US\$1,650 million in US dollar denominated and €315 million in Euro denominated Senior Secured Notes in August 2006 to facilitate the construction and initial operation of the Pilbara Iron Ore and Infrastructure Project.

**FORTESCUE METALS GROUP LTD**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED 31 DECEMBER 2009**

---

**NOTE 14. BORROWINGS (continued)**

The key terms and conditions of the notes are:

- US\$317.5 million of Senior Secured Notes due 2013 bearing interest at 10.000% per annum accruing from August 18, 2006. Interest is payable on March 1 and September 1 of each year, beginning on March 1, 2007;
- €298.8 million of Senior Secured Notes due 2013 bearing interest at 9.750% per annum accruing from August 18, 2006. Interest is payable on March 1 and September 1 of each year, beginning on March 1, 2007;
- US\$1,026 million of Senior Secured Notes due 2016 bearing interest at 10.625% per annum accruing from August 18, 2006. Interest is payable on March 1 and September 1 of each year, beginning on March 1, 2007. The Company has swapped these notes to a fixed rate of 9%;
- US\$250 million of Senior Secured Notes due 2011 bearing interest at three-month LIBOR plus 4.000% per annum, accruing from August 18, 2006. Interest is payable on March 1, June 1, September 1 and December 1 of each year, beginning on December 1, 2006. Fortescue has a floating-to-fixed interest rate swap over its US\$250 million Senior Secured Notes due 2011, swapping these notes to a fixed rate of 9% per annum.

Other key terms of the notes are:

- They rank *pari passu* in right of payment with all existing and future senior indebtedness;
- They are secured by, among other security documents, fixed and floating charges over the assets of FMG Resources (August 2006) Pty Ltd, (previously FMG Finance), and the project-related assets of FMG Chichester Pty Ltd, Pilbara Mining Alliance Pty Ltd and The Pilbara Infrastructure Pty Ltd (the “Project Guarantors”), a charge, assignment or pledge over the bank accounts in which proceeds of the Senior Secured Notes will be deposited, share mortgages over all of the shares in the capital of the Project Guarantors and FMG Resources (August 2006) Pty Ltd, a featherweight charge over all of the assets and undertakings of Fortescue and mortgages of the real property leasehold rights of the Project and the Project mining tenements;
- They are listed on the Singapore Exchange Securities Trading Limited (the “SGX-ST”).

**iii) Preference shares recognised as debt**

The Company issued 1,400 fully paid non-converting, redeemable preference shares at a price of \$100,000 per share on 30 September 2008. These preference shares have been recognised as debt in the financial statements as unlike ordinary shareholders there is not a right for preferential shareholders to share in the residual interests of the assets of Fortescue. A holder of Preference Shares is not entitled to share in the distribution of any surplus assets of the Company beyond its Redemption Amount. The Preference Shares rank in priority to FMG's ordinary shares for the payment of distributions in accordance with these terms.

The Preference Shares confers upon the holder the right in a winding up or return of capital to payment of an amount equal to the Redemption Amount, in priority to any other class of shares ranking behind it.

The Preference Shares shall rank *pari passu* with the most senior ranking preference shares of the Company and in priority to all other preference shares that are expressed to rank junior to the Preference Shares and the Company's ordinary shares, in a winding up of the Company.

The key terms for these preference shares are:

- Dividend coupon rate of 9% fixed p.a. payable six monthly either in cash, or where cash distributions are not able to be made by Fortescue, additional preference shares or ordinary shares (calculated on the basis of the volume weighted average share price) as elected by Fortescue;
- Term of 8.5 years;
- Redeemable by Fortescue at any time subject to minimum 30 days notice;

**FORTESCUE METALS GROUP LTD**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED 31 DECEMBER 2009**

**NOTE 14. BORROWINGS (continued)**

- Preference shares to rank in priority to Fortescue's ordinary shares on a winding up and in relation to the payment of distributions; and
- Limited voting rights.

We have reviewed the accompanying half-year financial report of Fortescue Metals Group Limited, which comprises the statement of financial position as at 31 December 2009, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes and the directors' declaration of the consolidated entity comprising the disclosing entity and the entities it controlled at the half-year end or from time to time during the half-year.

### **Directors' Responsibility for the Half-Year Financial Report**

The directors of the disclosing entity are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### **Auditor's Responsibility**

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim and Other Financial Reports Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the disclosing entity's financial position as at 31 December 2009 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Fortescue Metals Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Independence**

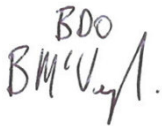

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001* would be in the same terms if it had been given to the directors at the time that this auditor's review report was made.

### **Conclusion**

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Fortescue Metals Group Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and Corporations Regulations 2001.
